## Invitation to cooperation

Boiler manufacturer PJSC TKZ Krasny Kotelshchik was established in 1896.

In 1917, the company started to produce mainly boiler equipment while the company workers mastered the skills of manual electric welding.

Since 1934 the company has supplied its products to other countries. The first seven steam boilers with middle steam pressure and temperature were supplied to Turkey. For more than a century Krasny Kotelshchik has been recognized as a well-reputed company and a major boiler manufacturer at the power market in Russia, CIS countries and all over the world.

A long-term experience allowed the company to retain the leading positions during the years of Russian economic reforms and successfully compete in production of complicated power equipment, manufacturing reliable high-tech products. The most valuable asset of the company is a unique team of engineers, skilled workers, business and production managers. The staff totals 3810 persons. The manufacturing area is 108 Ha.

Striving for further development, Krasny Kotelshchik continuously improves production and engineering technologies.

Krasny Kotelshchik manufactures various equipment for power sector, including:

- utility boilers, both subcritical and supercritical, running on coal, fuel oil and gas with output up to 1200 MW;
- waste and biomass boilers;
- heat recovery steam generators downstream gas turbines up to 375 MW for combined cycle power plants (under NooterEriksen license);
- TPP and NPP heat exchangers, water treatment systems and auxiliary equipment for various purposes;
- valves for thermal power plants;
- welded and bolted steel structures for various purpose;
- air heaters for power plants;
- pipeline fittings for Gasprom and Transneft companies.

All the equipment produced by the company is certified and approved by RF Rostechnadzor for application. The applied Quality Management System complies with ISO 9001:2008.

Krasny Kotelshchik is a modern and quickly developing company. Reputation of a reliable partner, long-term experience, careful response to Client's requirements and high level of after-sales service allow the company to build mutually beneficial cooperation with the current and future partners.
